

COMPLETECARE

Here at Severna Park Center, we are pleased that open visitation has continued. We follow the recommendations of the CDC and Maryland Health Department.

When you visit your loved one, please bring a face mask or use one of the surgical masks provided at the Center. Please keep your mask over your nose and mouth throughout your entire visit.

When you arrive, you will be asked to sign in at our kiosk to answer COVID-19 related questions and take your temperature before visiting your loved one.

We have at-home tests available for you to take before visiting or take at home before your next visit. Having a negative test before visiting your loved-one is highly encouraged.

Thank you for helping us keep your loved ones, our staff, and the community safe!
